1 Evolving data mining into solutions for insights: Emerging trends in business analytics

 Ron Kohavi, Neal J. Rothleder, Evangelos Simoudis
August 2002 **Communications of the ACM**, Volume 45 Issue 8

Publisher: ACM Press

 Full text available:  pdf(104.67 KB) Additional Information: full citation, abstract, references, citings, index terms
 html(24.34 KB)

The goal is business effectiveness through 'verticalization,' usability, and integration with operational systems.

2 Towards on-line analytical mining in large databases

 Jiawei Han
March 1998 **ACM SIGMOD Record**, Volume 27 Issue 1

Publisher: ACM Press

 Full text available:  pdf(387.04 KB) Additional Information: full citation, abstract, citings, index terms

Great efforts have been paid in the Intelligent Database Systems Research Lab for the research and development of efficient data mining methods and construction of on-line analytical data mining systems. Our work has been focused on the integration of data mining and OLAP technologies and the development of scalable, integrated, and multiple data mining functions. A data mining system, DBMiner, has been developed for interactive mining of multiple-level knowledge in large relational databases and ...

3 A delivery framework for health data mining and analytics

Damien McAullay, Graham Williams, Jie Chen, Huidong Jin, Hongxing He, Ross Sparks, Chris Kelman

 January 2005 **Proceedings of the Twenty-eighth Australasian conference on Computer Science - Volume 38 ACSC '05**

Publisher: Australian Computer Society, Inc.

 Full text available:  pdf(547.36 KB) Additional Information: full citation, abstract, references, index terms

The iHealth Explorer tool, developed by CSIRO and DoHA, delivers web services type data mining and analytic facilities over a web interface, providing desktop access to sophisticated analyses over very large data collections. The tool allows users to access large transactional datasets to create profiles of selected patients. The patients' profiles, together with windowed event sequences data, can then be analyzed using a user chosen data mining tool. The results of the analysis can then ...
